

PETROSMITH

C.O.R.E.

Compact. Optimized. Refueling. Equipment.

THE C.O.R.E. OF MODULAR FUELING

Petrosmith's C.O.R.E. Modular Fueling Solution is engineered to adapt to the evolving needs of today's fueling operations. Built around a universal skid with customizable tank sizes, **this system offers unmatched versatility, enhanced safety, and site efficiency.** It's designed to grow with you and deliver long-term value.

- Modular tank options from 500 to 12,000 gallons
- Supports a wide range of fuel types including Diesel (dyed and clear), Gasoline, Oil, Grease, and DEF
- Universal skid base supports quick installation and future expansion
- Bolt-on Strong Boxes provide scalable fueling points
- Detachable tanks allow for multi-fuel capability and asset reuse
- Optional OSHA-compliant stairs and walkway systems
- Integrated monitoring setup with pre-installed conduit and secure junction box

**DESIGNED FOR TODAY.
READY FOR TOMORROW.**

Our C.O.R.E. Solution gives you what you need now and prepares you for what's to come.

Easily expand, reconfigure, or relocate as your operations change.

FUELING SYSTEMS, REDEFINED.

Modular, mobile, and engineered to move with your operations backed by Petrosmith's trusted performance.

BUILT WITH PETROSMITH PRECISION

With decades of expertise in ASME and API-certified fabrication, Petrosmith delivers quality-built systems you can rely on. Every unit is designed for performance and delivered as a complete solution.

EXAMPLE CONFIGURATION

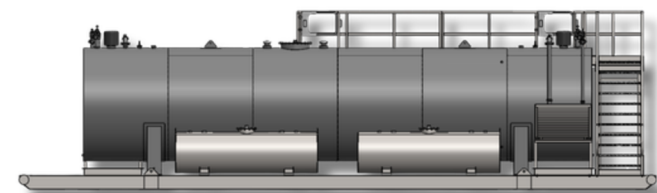

SIMPLIFIED TURNKEY SETUP

We pre-install customer-supplied monitoring systems and house electrical components in protected junction boxes. Quick-connect wiring simplifies site setup and future servicing.

MODULAR ADVANTAGES

- Scalable to meet future demands
- Compatible with Diesel (dyed or clear), Gasoline, Oil, Grease, and DEF
- Supports diverse fueling station layouts
- Weather-sealed enclosures protect key components
- Bolt-on systems simplify changes and additions
- Works for both temporary and long-term site installs

SAFETY COMES STANDARD

Our C.O.R.E. Solution puts safety at the center. With OSHA-grade stair access, dual egress points, and harness tie-off locations, your crew stays protected while maintaining full operational access.
